

# Attic and Outdoor VHF/UHF Antenna

This antenna is designed for VHF and UHF signal reception. Its durable construction ensures resistance against rust, water, and weather.

## Overview

### High-Performance VHF/UHF Reception

This versatile antenna is specially engineered for high-quality reception of both VHF and UHF signals, including Full HD and digital TV broadcasts. Designed for both attic and outdoor installations, it features a professional structural design that ensures durability while remaining easy to install. The antenna's robust construction is weather-resistant and anti-rust, providing a reliable solution for users looking to access free local channels and reduce cable costs.

## Technical Specifications

### Signal Performance

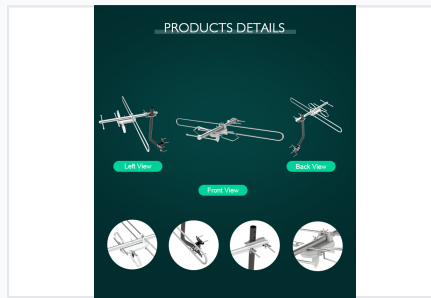

- Full HD TV Signals
- Digital TV Signals
- Local VHF Signals
- Local UHF Signals

<b>Model Number</b>	SPR-10N
<b>Reception Range</b>	Medium Range

## Design & Construction

Built for durability with anti-rust, waterproof, and UV resistant materials.

Comprehensive design views showing the front, back, and side profiles.

The integrated reflector panel significantly reduces signal interference.

### Key Features

Anti-Rust • Waterproof • UV Resistant • Weather Resistant • Interference Resistant

### Physical Specifications

Attribute	Detail
Color	White
Installation Type	Outdoor / Attic
Mounting	Rooftop or Attic
Element Type	Clip-up Elements

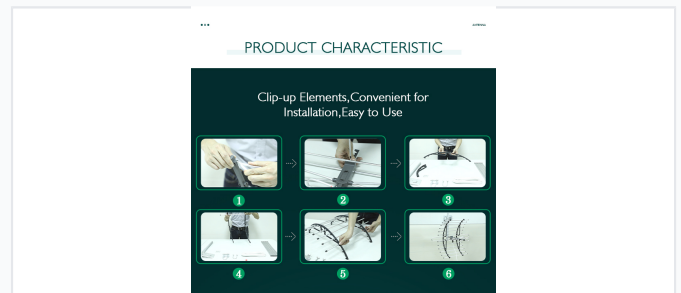

### Reflector Panel Design

Provides excellent resistance to interference for clearer signal capture.

## Installation & Logistics

Ideal for rooftop or attic installations to access free local broadcast channels.

Features clip-up elements for a fast and convenient installation process.

### Packaging & Logistics

- Reduced retail pack to save freight and warehouse costs
- Color Box packing
- Space-saving shelf design

### Installation Benefits

Easy Installation, Clip-up Elements, Professional Structural Design

## Quality & Compliance

### Management Standards

- ISO 9001:2015
- SEDEX Certified
- BSCI Certified

### Product Certifications

CE, RoHS, REACH, RED, Prop65, SGS, TUV
