Product Overview

High-Efficiency ATV Electric Sprayer

This high-pressure disinfectant sprayer is engineered for professional agricultural and garden applications, offering high-efficiency performance when mounted on ATVs. Available in both 60L and 100L tank capacities, it provides the versatility needed for various spraying tasks, from pesticide application to thorough disinfection. The electric pump system ensures consistent pressure and ease of use for both small-scale gardens and larger agricultural environments.

Technical Specifications

Tank Capacity Options

- 60 Liters
- 100 Liters

Pressure Rating

High Pressure

Model Number

SX-CZ60D

Power Source

Electric Pump

Applications

Primary Applications

Agriculture, Garden, Disinfection, Pesticide Application, Fertilizer Application

Vehicle Compatibility

ATV (All-Terrain Vehicle)

Quality & Compliance

Certifications

CE, GS, CCC, BSCI, ISO 9001, ISO 14001

Logistics & Service

Standard Lead Time	25-45 days
Sample Availability	Available upon request (1-7 days shipping for non-electric components)
