

Audio Alert Device

This device functions as a speaker, trumpet, and buzzer. It is suitable for generating different types of audio alerts and signals.

Product Overview

High-Performance Off-Road Capability

This off-road motorcycle tire is engineered for superior traction and durability across challenging terrains. Featuring a specialized knobby tread pattern with deep grooves, it provides reliable grip on loose surfaces including dirt, mud, and gravel. The robust construction includes a reinforced sidewall to ensure stability and impact resistance for dual-sport and adventure riding.
