

Audio Alert Device with Trumpet and Buzzer

This device combines a speaker, trumpet, and buzzer into a single unit. It is suitable for various alerting and notification applications.

Product Overview

Professional Audio Alert System

This high-performance audio alert device integrates a robust trumpet speaker with a high-decibel buzzer mechanism. Designed for industrial and professional applications, it offers precise sound projection and reliable alerting capabilities. The unit is engineered for versatile integration, featuring compact dimensions and a standardized mounting base to suit diverse machinery and safety systems.

Physical Dimensions

Internal Component Lengths

Section	Dimension
Segment A	23.5
Segment B	54.5
Segment C	67.5

Height Profile

- 20.5
- 15.5
- 75
- 47
- 21

Overall Length: 150 mm

Base Length: 135 mm
