

Audio and Video Signal Cable

This audio and video cable is designed for reliable signal transmission. It is suitable for use in various electronic devices and audio-visual applications.

Product Overview

High-Performance Signal Transmission

This audio and video signal cable is engineered for reliable connectivity in demanding electronic applications. Designed with high-quality conductive materials, likely copper or copper-clad, it ensures optimal signal integrity and minimal interference. The cable comes conveniently wound on industrial spools, making it ready for efficient integration into audio-video production lines or accessory manufacturing.

Technical Specifications

Conductor Material	Copper or Copper-Clad
Primary Applications	Audio Systems, Video Equipment, Electronic Accessories, Signal Transmission

Packaging & Logistics

Packaging Format	Industrial Spool
