

Audio Equipment Gasket

This gasket is designed for use with speakers, trumpets, and buzzers. It is precision-cut to ensure a perfect fit and seal, preventing leaks and ensuring optimal performance.

Product Overview

Professional Audio Gasket

This high-performance gasket is specifically engineered for use with speakers, trumpets, and buzzers. Precision-cut for a perfect seal, it is manufactured from durable materials capable of withstanding demanding temperature and pressure environments. Its design features a circular inner diameter with integrated mounting holes for reliable, secure installation in audio maintenance applications.

Technical Specifications

Key Features

- High temperature resistance
- High pressure resistance
- Precision-cut design
- Leak prevention

Mounting Configuration	4
Shape	Circular
Compatible Equipment	Speakers, Trumpets, Buzzers
