

Audio Speaker for Textile Machinery

This high-performance audio speaker is designed for apparel and textile machinery applications. Its robust construction ensures durability in industrial environments and delivers clear, consistent sound output.

Product Overview

Industrial Audio Integration

This high-performance audio speaker is specifically engineered for integration into apparel and textile machinery. The unit features a robust construction designed to withstand demanding industrial environments while delivering clear and consistent sound output. Its compact profile ensures easy installation into existing systems, providing a reliable long-term solution for audio signaling and communication.

Technical Features

Performance Metrics

100 Industrial
Durability

Primary Application

Apparel Machinery, Textile Manufacturing, Industrial Signaling

Design and Build

Design Characteristics

- Compact design for easy integration
- Robust construction for durability
- Optimized for wide frequency range

Industrial Grade

Yes
