

Audio Video Connector Adapter

Adapter facilitates connection between audio and video equipment. It is designed with a male connector on one end and a female connector on the other for signal transmission.

Product Overview

Professional Connectivity Solution

This audio video connector adapter is engineered to facilitate seamless signal transmission between diverse broadcast and multimedia equipment. Constructed with high-quality metal and plastic components, it ensures a secure fit and reliable electrical connectivity. Its design is optimized for professionals needing to bridge connectivity gaps between different interface types in studio or field environments.

Technical Specifications

Construction Materials

- Durable Plastic housing
- Conductive Metal connectors

Color

Black

Connector Configuration

Male Input, Female Output

Typical Application

Audio and video signal transmission
