Overview

High-Efficiency Corrugated Folder Gluer

This automated folder gluer is designed for high-performance corrugated box production, featuring adjustable feeding belts for stable and smooth material handling. The system includes an advanced alignment section for precision and a lengthened folding section to ensure perfect, rapid forming of cartons. Equipped with an integrated impacting device for neat packing, this machine provides a reliable and cost-effective solution for large-scale packaging needs.

Technical Specifications

Maximum Liner Speed

220 m/min
Speed

Available Models

SHH-1050, SHH-1250, SHH-1450, SHH-1650, SHH-1850, SHH-2050B2A

Electrical Power

8KW, 380V, 50HZ, 3P

Processing Capabilities

Supported Materials

- Cardboard 200-800g
- A-flute
- B-flute
- C-flute
- E-flute
- F-flute

Folding Capability

Fold 2 and Fold 4 at 180 degrees

Glue Material

Water-base cold glue

Physical Dimensions

Machine Weights by Model

Model	Weight (KG)
SHH-1050	3400
SHH-1250	3800
SHH-1450	4200
SHH-1650	4600
SHH-1850	5000
SHH-2050B2A	5400
