Product Overview

Professional Auto-Darkening Welding Filter

This high-performance auto-darkening welding filter is engineered to provide superior eye protection during welding and cutting operations. It features advanced sensor technology for rapid arc detection and automatic darkening, ensuring instant safety from harmful radiation. Designed for versatility, it includes adjustable settings for sensitivity, delay, and shade, making it suitable for a wide range of industrial welding tasks.

Performance Metrics

Switch Time

0.5 ms

Response Time

Viewing Area

100 x 61 mm

Shade Range

DIN 4 to DIN 13

Technical Features

Key Functions

Welding • Cutting • Grinding • Low Battery Warning

Number of Sensors

4

Power Source

Solar Power, Replaceable Battery

Compliance & Safety

Safety Standards

EN 379, ANSI Z87.1

Construction

Material

High-quality plastic
