

Auto-Darkening Welding Helmet

Protective welding helmet shields the user's eyes and face from welding hazards. It features an auto-darkening filter for optimal visibility and is made from durable, heat-resistant materials.

Product Overview

Professional Auto-Darkening Welding Helmet

This protective welding helmet is engineered to shield the user's face and eyes from sparks, spatter, and harmful radiation during welding operations. It features an integrated auto-darkening filter (ADF) that ensures optimal visibility and safety, allowing for precise control. Constructed from durable, heat-resistant materials, this helmet is built to withstand the rigors of demanding industrial environments.

Safety & Compliance

Safety Features	Auto-Darkening Filter, Heat-Resistant, Radiation Protection
Important Notice	Please remove the protective film before use.
