

Auto Engine Grille

This auto engine grille is made from durable black plastic. It features horizontal slats and side openings designed for airflow and protection.

Product Overview

High-Performance Engine Grille

This automotive engine grille is engineered to optimize airflow while providing essential protection for your engine components. Constructed from durable black plastic, the design features sleek horizontal slats and specialized side openings to ensure efficient cooling. It is a robust replacement part designed to maintain both the aesthetic and functional integrity of the vehicle's front end.

Physical Characteristics

Material	High-grade automotive plastic
Color/Finish	Black
Design Features	Horizontal Slats, Side Airflow Openings, Aerodynamic Design

Performance & Application

Primary Function

- Engine cooling optimization
- Debris protection
- Front-end aesthetic enhancement

Installation

Direct Fit • OEM Replacement
