Product Overview

Professional Drain Cleaning Solution

This auto-feed drain cleaning machine is engineered for the efficient maintenance of small-diameter indoor and outdoor pipes. It features a fully sealed structure with a durable nylon drum, ensuring a clean and convenient user experience. With variable speed control and an automated feed mechanism, it offers precise handling for navigating curved pipes and removing obstructions effectively.

Technical Specifications

Variable Speed

600 rpm
Max Speed

Applicable Pipe Diameter	20-65mm (3/4" - 2 1/2")
Auto-Feed Speed	5 m/min
Voltage Options	110V, 220V

Design & Compatibility

Compatible Shaft Sizes

- 8mm (5/16")
- 10mm (3/8")

Construction Features

Sealed Structure • Nylon Drum • Enhanced Inner Core Shafts
