

Automated Container Filling and Sealing Machine

This automated machine is designed for high-speed filling and sealing of containers. It features a stainless steel frame, programmable logic controller (PLC), and a user-friendly touchscreen interface.

Overview

High-Efficiency Automated Packaging Solution

This automated container filling and sealing machine is engineered for high-speed, continuous operation in industrial packaging environments. Featuring a robust stainless steel frame and a precise PLC-based control system, it offers reliable performance for diverse production needs. The system is designed for versatility, easily adapting to various container sizes and shapes while maintaining consistent fill volumes and sealing pressure.

Technical Specifications

Construction Material	Stainless steel
Control System	Programmable Logic Controller (PLC)
Interface	Touchscreen
Filling Heads	Multiple
Conveyor System	Yes

Safety & Compliance

Safety Features	Emergency Stop, Safety Interlocks
-----------------	-----------------------------------

Applications

Suitable Industries

Food • Beverage • Pharmaceutical • Cosmetic
