Product Overview

Smart Automated Floor Cleaning Solution

This advanced floor cleaning robot utilizes high-precision laser navigation to map environments in real-time, ensuring comprehensive coverage without omissions. It features a versatile 2-in-1 vacuum and mop system with intelligent water control to maintain optimal surface results. Designed for high-efficiency operation, the unit automatically adapts to floor surfaces and resumes cleaning tasks after self-recharging.

Technical Specifications

Maximum Suction Power

8000 Pa
Max Suction

Navigation Technology

Advanced Laser Navigation

Cleaning Modes

Vacuuming, Mopping, 2-in-1 Combined

Smart Features

Connectivity

Wi-Fi Enabled • Remote APP Control

Key Smart Capabilities

- Real-time 2D mapping
- Intelligent path planning
- Forbidden and cleanable zone settings
- Automatic recharge and resume
- Partitioned room cleaning
