

# Automated Floor Cleaning Robot

This automated floor cleaning robot is designed for efficient and automated floor cleaning. It features various cleaning modes accessible through intuitive controls and includes a sensor suite for navigation and obstacle avoidance.

## ADDITIONAL IMAGES

## Product Overview

### Efficient Automated Cleaning

This automated floor cleaning robot is designed for seamless maintenance across various indoor environments. It features a compact, low-profile design that allows it to reach under furniture, supported by advanced sensors for obstacle avoidance and edge detection. With multiple cleaning modes and high-performance suction capabilities, it provides a comprehensive solution for managing dust, debris, and pet hair.

## Technical Specifications

### Performance Metrics

<b>37 W</b> Rated Power	<b>100 min</b> Min Working Time	<b>2600 mAh</b> Max Battery Capacity
<b>Input Voltage</b>	100-240V	
<b>Charging Time</b>	4 h	
<b>Operating Noise Level</b>	65 dB	

## Design and Capacity

### Physical Dimensions & Weight

Attribute	Value
Net Weight	2.8 kg
Gross Weight	4.25 kg
Size	326x83 mm / 270x75 mm
<b>Dust Box Capacity</b>	446 ml

## Features

Cleaning Modes

Automatic, Spot Cleaning, Edge Cleaning
