

Automated Tire Changer

This tire changer is designed for efficient and safe tire removal and installation. It features a robust construction for durability and long-term use.

Overview

Professional Tire Service Solution

This automated tire changer is engineered for high-efficiency tire removal and installation in professional automotive environments. Built with a robust structure for durability, the machine integrates a powerful motor and precise controls to handle a wide range of tire sizes. Its ergonomic interface reduces operator fatigue, while comprehensive safety systems, including emergency stops and overload protection, ensure a secure working environment.
