

Automatic 3-Ply Mask Making Machine with Earloop Welding

This automatic machine produces 3-ply masks. It also includes earloop spot welding functionality.

Overview

High-Efficiency Mask Production

This automatic 3-ply mask making machine is designed for the efficient production of disposable face masks. It integrates essential earloop welding capabilities to streamline the manufacturing process. The system is optimized for high-volume output, making it an ideal solution for automated mask fabrication facilities.

Performance Metrics

Mask Machine Speed

80 pcs/min

Processing Speed

Earloop Welding Speed

20 pcs/min

Welding Speed

Operational Recommendations

Recommended Line Configuration

One face mask machine is best matched with two or three ear band welding machines.

Capabilities

Production Capabilities

3-Ply Mask Production, Automatic Earloop Welding, Disposable Mask Manufacturing
