

Automatic Asphalt Distributor Truck

The automatic asphalt distributor truck is designed for road construction and maintenance. It features a computerized control system for precise asphalt spraying and a heating system to maintain optimal asphalt temperature.

Overview

Professional Asphalt Distribution

The HGY5122GLQ is a high-performance automatic asphalt distributor truck engineered for efficient road construction and maintenance. It features a computerized control system for precise asphalt spraying and an advanced heating system to maintain optimal material temperature. Designed for versatility, this unit ensures uniform distribution across various paving projects.

Technical Specifications

Spray Width	4500 mm
Spray Volume Range	0.3—2.0 kg/m ²
Asphalt Tank Capacity	6000 L
Compatible Spray Media	Hot Asphalt, Modified Asphalt, Cutback Asphalt, Emulsified Asphalt
Heating System	Imported diesel oil burner (10×10 ⁴ kCal/h)

Performance Metrics

Auxiliary Power

26 kW

Power Output

2350 rpm

Rotation Speed

Dimensions and Chassis

Model Identifiers

Component	Model Number
Product Model	HGY5122GLQ
Chassis Model	ZZ1124K4716D1

Overall Dimensions (L×W×H)	8870 × 2496 × 3135 mm
