Overview

Professional Bean-to-Cup Experience

This fully automatic coffee machine is engineered for high-demand commercial environments, featuring a precision tapered grinding system with 12 adjustable grades. Designed for efficiency and ease of use, it includes an intuitive LCD digital interface with multi-language support and automated maintenance routines, such as rinsing cycles upon startup and shutdown. With a large 1KG bean hopper and external water source capabilities, it is built to deliver consistent, fresh coffee throughout the business day.

Key Performance Metrics

Performance Highlights

1300 W

Power Rating

1 KG

Bean Capacity

3.5 L

Water Tank

Technical Specifications

Electrical Requirements

Parameter	Specification
Voltage	AC220-240V / AC110-120V
Frequency	50/60Hz
Power	1300W

Operational Capacities

- Brewing Unit Capacity: 10-13g
- Water Tank Volume: 3.5L
- Bean Tank Volume: 1KG
- Grounds Tank Volume: 25PCS

Logistics & Dimensions

Item	Dimensions (mm)	Weight (kg)
Product	475x251x605	17
Packing	580x365x705	18.5

Features

Automated Alerts

Water Shortage Alarm • Bean Shortage Alarm

Core Functionalities

6-Language Operation, Tapered Grinding System, 12-Grade Adjustment, LCD Digital Display, Auto-Rinsing System, External Water Source, Wastewater Discharge
