Overview

Professional Bean-to-Cup Experience

This fully automatic coffee machine is designed for seamless operation, delivering café-quality beverages like Americanos, Italian espressos, cappuccinos, and lattes at the touch of a button. With an integrated grinder, customizable settings for coffee strength and volume, and a built-in milk frothing system, it provides a complete barista experience in a compact footprint. Its sleek, elegant black metal design makes it a stylish and practical addition to any professional office or kitchen environment.
