

# Automatic Blood Pressure Monitor with Digital Display

This automatic blood pressure monitor is designed for home use. It features Intellisense technology for comfortable and accurate readings, displaying systolic and diastolic blood pressure and pulse rate.

## Product Overview

### Professional Automatic Blood Pressure Monitor

This automatic blood pressure monitor is designed for reliable and comfortable health tracking. Featuring advanced sensing technology, it provides precise systolic and diastolic readings along with pulse rate monitoring. The device includes a clear digital display and built-in memory storage, making it an ideal tool for monitoring health trends over time.

## Measurement Metrics

### Systolic Pressure

**118 mmHg**

Systolic Reading

### Diastolic Pressure

**78 mmHg**

Diastolic Reading

### Pulse Rate

**70 bpm**

Pulse

## Technical Features

### Display Indicators

- Systolic pressure
- Diastolic pressure
- Pulse rate
- Time/Date stamp

### Key Features

Automatic Measurement, Digital Display, Memory Storage, Intellisense Technology
