

Automatic Bottle Film Sealing Machine

This automatic machine seals bottles with plastic film, ensuring product integrity. It features a conveyor system, automated film application, and adjustable settings for different bottle sizes.

Overview

High-Efficiency Sealing Solution

This automatic bottled film sealing machine is engineered for high-volume production environments, ensuring consistent product integrity and tamper evidence. Built with durable stainless steel, it offers a hygienic and reliable solution for continuous packaging operations. The system features an integrated conveyor and adjustable settings, making it highly adaptable for various bottle sizes and film types across the beverage, food, and pharmaceutical industries.

Technical Specifications

Automation Level

Automatic

Material

Stainless Steel

Suitable Industries

Beverage, Food, Pharmaceutical

Operational Features

Core Features

- Continuous conveyor feeding system
- Automated film application and cutting
- Adjustable settings for diverse bottle sizes
- Precise control panel for operation and monitoring
