Overview

Full automatic carton erector with bottom sealing capabilities.

High-Efficiency Carton Erector

This automatic carton erector with bottom sealer is designed to streamline end-of-line packaging processes. It features a vertical carton storage and loading mechanism for rapid, continuous operation. Engineered for durability and high performance, the system allows for quick size modulation, making it suitable for various packaging requirements in food, beverage, and pharmaceutical industries.

Operational Specifications

Running Speed

600 ctns/h
Min Speed

720 ctns/h
Max Speed

Tape Width Options

48mm • 60mm • 75mm

Carton Size Range

L 200-450mm x W 150-400mm x H 100-350mm

Pneumatic Requirements

5 to 6 kg/cm² (150Ne/min)

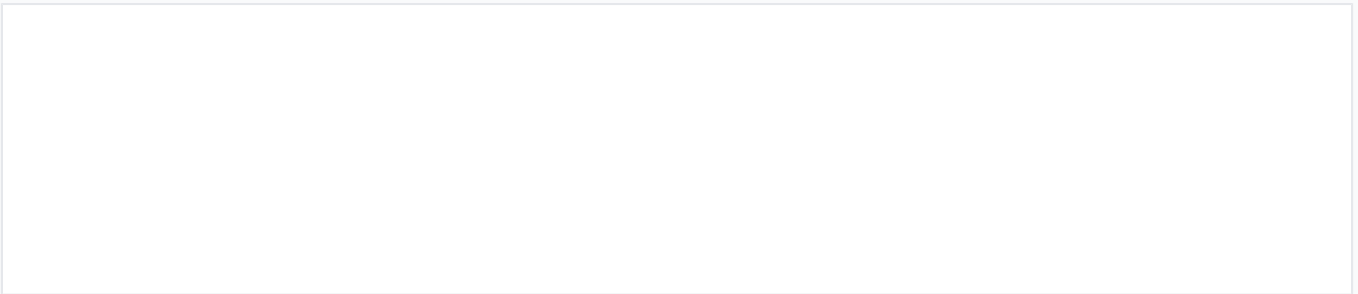

Technical Details

Robust construction designed for high-speed carton forming and sealing.

Equipment Dimensions	L 2000mm x W 1900mm x H 1200mm
Total Weight	350 kg
Min Table Height	650 mm

Components & Control

User-friendly interface for easy setup and monitoring of packaging parameters.

Key Components

Component	Specification/Brand
PLC	Siemens or Mitsubishi
Cylinder	AIRTAC
Sensors	Omron
Contractor & Switch	Schneider
Touch Screen	5.7 inches

Power Requirements	220/380V, single phase, 50/60Hz
