Overview

Automated Carton Liner Solutions

This fully-automatic machine streamlines packaging operations by inserting liner bags directly into erected cartons. It handles the entire process from cutting and sealing film from roll stock to opening, cuffing, and air-extending the bag to ensure a perfect fit against the box walls. Designed to reduce labor and material costs, this system offers a simple, adjustable operation suitable for diverse industries ranging from food processing to hardware packaging.

Performance Metrics

Inserting Capacity

7 cartons/min

Standard Capacity

12 cartons/min

High-Speed Option

Technical Specifications

Power Supply	3 phase, 4.5 kW
Compressed Air	6 bar
Air Consumption	100 NL/min
Film Width	460-840mm

Dimensions

Applicable Carton Dimensions

Dimension	Range (mm)
Length	250-550
Width	200-400
Height	150-400

Machine Dimensions

L3322*W2177*H2350mm

Applications

Suitable For

Bread Rolls, Edible Oil & Fat, Fruits & Vegetables, Granules & Nuts, Meat & Fish, Caps & Closures, Golf Equipment

Features

Operational Benefits

- Reduces labor and material costs
- Simple to operate and easy to adjust
- Compatible with carton erectors for full automation
- Includes air-blowing feature for perfect bag fit
