

Automatic Carton Sealing Machine

This automatic machine seals cartons of various sizes using adjustable height and width settings. It utilizes a tape head to apply adhesive tape to both the top and bottom flaps of the carton simultaneously.

Overview

Automatic Carton Sealing Machine

This automatic carton sealing machine is designed to streamline packaging operations by applying adhesive tape to both the top and bottom flaps of cartons in a single pass. It features a robust, user-friendly design with adjustable height and width settings, making it highly versatile for various carton sizes. Ideal for high-volume environments, this machine improves efficiency and product presentation across industries such as food, pharmaceuticals, and household goods.

Technical Specifications

Power Supply	AC 220V/50Hz or 110V/60Hz
Power Consumption	120w x 2 + 90W

Performance

Conveyor Speed	20 M/min
Adhesive Tape Width	60 mm

Dimensions

Packing Capacity

200 mm
Min Length

500 mm
Max Width

650 mm
Max Height

Physical Attributes

Machine Weight

168 kg
Net Weight

228 kg
