Product Overview

High-Efficiency Carton Sealing Solution

This automatic carton sealing machine is engineered for precision and reliability in end-of-line packaging environments. Designed specifically for cooking oil cartons, it automates the folding and taping process to ensure consistent, professional seals while minimizing labor costs. With adjustable height and width settings, it offers the flexibility to handle various carton sizes smoothly and securely.

Technical Specifications

Operation Modes

- Stand-alone operation
- Integrated line wiring

Maximum Carton Size

500 mm

Sealing Features

Automatic Steering, Top & Bottom Sealing, Corner Sealing, Pneumatic Controls

Design & Quality

Construction Highlights

Durable Structure • High-Quality Electronics • Pneumatic Components • Precision Engineered
