

Automatic Container Filling and Sealing Machine

This automatic packaging machine is designed for high-speed filling and sealing of containers. It features stainless steel construction and a programmable logic controller (PLC) for precise control.

Overview

High-Efficiency Packaging Solution

This automatic container filling and sealing machine is engineered for high-speed production environments requiring precision and reliability. Constructed with durable stainless steel, it features a programmable logic controller (PLC) for consistent operation and flexible settings to accommodate various container sizes and fill volumes. Designed for versatility, it is an ideal solution for the food, beverage, pharmaceutical, and cosmetic industries.

Technical Specifications

Construction Material	Stainless Steel
Control System	Programmable Logic Controller (PLC)
Operation Type	Automatic

Features

Key Features

- High-speed filling and sealing
- Adjustable settings for various container sizes
- Adjustable fill volumes
- Integrated safety features
- Easy-to-use operator interface

Suitable Industries	Food, Beverage, Pharmaceutical, Cosmetic
