

Automatic Container Sealing and Labeling Machine

This automatic packaging machine is designed for high-speed sealing and labeling of various container types. It features a programmable logic controller (PLC) for precise control, stainless steel construction for hygiene and durability, and adjustable parameters for different product sizes.

Overview

High-Efficiency Packaging Solution

This automatic container sealing and labeling machine is engineered for high-speed, precision performance across diverse production environments. Featuring robust stainless steel construction, it ensures hygiene and durability while offering seamless integration into food, beverage, pharmaceutical, and cosmetic production lines. With its intuitive touchscreen interface and programmable logic controller (PLC), operators can easily adjust parameters to accommodate various container sizes, maximizing versatility and throughput.

Technical Specifications

Construction Material	Stainless Steel
Control System	Programmable Logic Controller (PLC)
Interface	Touchscreen

Safety & Compliance

Safety Features

- Emergency stop buttons
- Interlocked guarding

Operational Versatility

Target Industries	Food, Beverage, Pharmaceutical, Cosmetic
Adjustability	Yes
