

Automatic Cooking Oil Filling Machine

This automatic filling machine is designed for filling barreled cooking oil and other edible oils. It ensures efficient and high-volume production with precise filling mechanisms.

Overview

Automatic Edible Oil Filling System

This high-performance automatic filling machine is engineered for the efficient bottling of cooking and edible oils. Designed for durability and hygiene, it features stainless steel construction and is suitable for a wide range of container volumes. With multiple filling nozzles and precise control, it ensures consistent fill levels and high production capacity for industrial bottling lines.

Performance Metrics

Capacity by Model

Model	Nozzles	Capacity (B/H)
DTBLDG-Z6	6	1000-1200
DTBLDG-Z8	8	1800-2200
DTBLDG-Z10	10	2000-2800

Filling Precision

1 %

Precision

Technical Specifications

Filling Volume Range	100-1000ml
Power Supply	380V 50/60Hz
Power Consumption	1.5 kW
Air Pressure	0.4-0.6MPa

Features

Key Advantages

- No-drip filling mechanism
- Anti-foaming technology
- Accurate liquid level control
- Customizable configuration
- Efficient and cohesive production flow

Material Construction	Stainless Steel 304, Stainless Steel 316
Packaging Information	PE film and plywood case
