

# Automatic Cup Filling and Sealing Equipment

This automatic cup filling and sealing machine dispenses, fills, and seals cups with various products. The machine features stainless-steel construction and a control panel for adjusting filling volume, sealing temperature, and speed.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Cup Packaging Solution

This automatic cup filling and sealing equipment is engineered for high-speed, hygienic packaging of liquid products such as soybean milk, fruit juice, and mineral water. The system streamlines the entire production workflow, including cup dispensing, precise filling, photoelectric alignment, sealing, date coding, and final product discharge. Designed for reliability and consistent performance, it is an ideal solution for food and beverage facilities requiring automated, tamper-evident packaging.

## Performance Metrics

### Production Speed

**2000 cups/h**  
Min Capacity

**3500 cups/h**  
Max Capacity

### Filling Volume

250 ml

## Technical Specifications

### Automation Capabilities

- Cup fixing
- Liquid filling
- Photoelectric revision
- Film sealing
- Date printing
- Cutting and dropping

### Model Details

BG32A

### Build Quality

Stainless Steel, Industrial Grade
