

# Automatic Dumpling Forming Machine

This machine efficiently produces dumplings, samosas, and spring rolls in various shapes. It automates the filling and shaping process to ensure consistent product quality.

## Product Overview

### High-Efficiency Dumpling Production

This automatic dumpling forming machine is designed for high-volume commercial food production, offering a seamless process from dough pressing to molding. Utilizing double frequency conversion control, it ensures consistent, high-quality results that mimic hand-made textures while significantly reducing labor costs. Its versatile design allows for the production of various shapes and sizes, making it an ideal solution for hotels, restaurants, and frozen food factories.

## Technical Specifications

### Output Capacity

**8000 pcs/h**

Production Rate

Model	FDAD500
Voltage	220V
Power	2.5 kw
Dimensions	1780 x 650 x 1400 mm
Weight	500 kg

## Performance & Features

### Supported Dumpling Weights

- 6-8g
- 12-14g
- 15-16g
- 18-20g
- 40-45g

### Construction Materials

SUS304 Stainless Steel • PU Conveyor

### Adjustable Parameters

- Wrapper thickness
- Stuffing quantity

### Compatible Product Types

Dumpling, Spring Roll, Wonton, Hotpot Dumpling, Pearl Dumpling, Samosa
