

Automatic Flat Surface Label Applicator

This automatic labeling machine is designed for applying labels to flat or slightly curved surfaces. Its robust stainless steel construction ensures durability and accurate label placement for bottles, boxes, and other flat-sided products.

Overview

High-Efficiency Flat Surface Labeling

The LT500 is a professional-grade automatic labeling solution designed for flat surface applications. Built with high-grade stainless steel and aluminum alloy, it ensures durability for industrial environments. Featuring advanced servo-driven technology and precise PLC controls, this machine delivers high-speed, accurate labeling for a wide range of product dimensions.

Performance Metrics

Output Speed

350 PCS/min
Maximum Output

Labeling Precision	±1mm
--------------------	------

Technical Specifications

Machine Dimensions	1600L x 550W x 1600H mm
Machine Weight	450 KG
Power Supply	220V 50/60HZ
Power Consumption	3.5 KW
Printer Air Pressure	5 KG/cm ²

Compatibility

Compatible Object Dimensions

Dimension	Range
Object Height	30-350mm
Object Thickness	20-120mm
Label Height	15-140mm
Label Length	25-300mm

Roll Specifications

- Inside Diameter: 76mm
- Outside Diameter: 420mm

Construction

Build Materials

Stainless Steel, Aluminum Alloy
