Product Overview

Professional Automatic Meat Slicer

This high-efficiency automatic meat slicer is engineered for commercial-grade performance in demanding environments like restaurants, delis, and food processing facilities. Constructed from durable aluminum alloy with high-quality stainless steel blades, it ensures precise and consistent slicing of frozen beef, ham, fish, and cheese. With integrated sharpening tools and a waterproof safety switch, this machine is designed to maximize throughput while maintaining high international sanitation standards.

Construction and Design

Design Features

- Waterproof on/off switch
- Hard and sharp blade
- Smooth sliding steel axle
- Built-in sharpening mechanism

Materials Used

Stainless Steel Blade, Aluminum Alloy Body, Steel Axle

Operational Applications

Applications

Restaurants • Hotels • Catering • Butcher Shops • Deli Counters

Compatible Foods

- Frozen Meat
- Deli Meat
- Ham
- Bacon
- Fish
- Cheese
- Bread
