

Automatic Hand Sanitizer Dispenser

This automatic hand sanitizer dispenser uses intelligent induction for effective hand sanitization. Designed for public spaces, it features adjustable height and multiple pump options to accommodate various liquid types.

Product Overview

Intelligent Hand Sanitization Solution

This automatic hand sanitizer dispenser is designed for hygienic, touch-free operation in high-traffic public environments. Featuring intelligent induction technology, it ensures efficient sanitization while minimizing cross-contamination risks. With versatile pump options, it supports various liquid types, making it an adaptable choice for offices, malls, and public facilities.
