Product Overview

Professional Automatic Disinfection System

This automatic hand sanitizer dispenser is designed for high-traffic B2B environments where hygiene is a priority. Featuring advanced infrared sensing technology, it provides a completely touch-free experience to prevent cross-contamination. Constructed from durable ABS material, it is suitable for hospitals, clinics, and food processing facilities.

Technical Specifications

Rated Power	20 W
Operating Voltage	AC 220V (50Hz-60Hz)
Infrared Sensing Distance	10 ± 3cm

Design & Capacity

Available Capacities

- 1500ML
- 2000ML

Housing Material	ABS Plastic
