

# Automatic In-Ground Swimming Pool Cleaner

This automatic swimming pool cleaner is designed for efficient and thorough cleaning of in-ground pools. It features a powerful motor and advanced navigation system to ensure complete coverage of the pool floor, walls, and waterline.

## Overview

### Professional Pool Cleaning Solution

This automatic swimming pool cleaner is engineered for the efficient maintenance of in-ground pools. It utilizes a powerful motor paired with an advanced navigation system to ensure comprehensive coverage of the pool floor, walls, and waterline. The integrated scrubbing brushes effectively remove stubborn dirt, debris, and algae, while the self-contained filtration system captures fine particles to significantly enhance water quality.

## Performance Metrics

### Key Capabilities

- Powerful motor for deep cleaning
- Advanced navigation system
- Scrubbing brushes for algae removal
- Self-contained filtration system

### Cleaning Coverage

Pool Floor, Walls, Waterline

## Maintenance

### Maintenance

Easy to Use • Low Maintenance
