Product Overview

Versatile Liquid Filling Solution

This automatic liquid filling machine is engineered with a hygienic stainless steel body, ensuring compliance with strict food safety standards. It offers flexible operation modes, supporting both automatic and semi-automatic filling for a wide range of liquids and pastes, including honey, juice, and water. With its compact, space-saving design, the machine is easy to disassemble and clean, making it an ideal choice for both small-scale family operations and larger factory production lines.

Technical Specifications

Suitable Products

- Water
- Honey
- Juice
- Pastes
- Liquids

Material	Stainless Steel
Operation Modes	Automatic, Semi-automatic

Operational Features

Core Advantages

Food Hygiene Compliant • Easy Maintenance • Compact Design • Adjustable Parameters

Maintenance	Easily disassembled, cleaned, and disinfected manually
Integration	Yes
