

Automatic Liquid Filling Machine

This automatic liquid filling machine is designed for filling liquids into bottles. It features a multi-head filling system and an automatic control panel.

Overview

High-Efficiency Liquid Filling Solution

This automatic liquid filling machine is engineered for precision and efficiency in filling water and various liquid products into bottles. Built with robust stainless steel, it features a multi-head filling system and an intuitive automatic control panel to streamline production. Its versatile design accommodates a wide range of bottle sizes and shapes, making it an ideal choice for the food and beverage, pharmaceutical, and cosmetic industries.

Technical Specifications

Automation Level

Automatic

Construction Material

Stainless Steel

Filling System

Multi-head

Applications

Compatible Liquids

- Water
- General Liquids

Suitable Industries

Food & Beverage, Pharmaceutical, Cosmetic
