

Automatic Liquid Pouch Filling and Sealing Machine

This automatic machine is designed for filling and sealing liquid products in pouches. It creates rounded corners for better aesthetics and package integrity.

Product Overview

High-Efficiency Liquid Packaging Solution

This automatic packing machine is engineered for the precise filling, sealing, and cutting of liquid, beverage, health care, and food products. Featuring specialized round-corner sealing technology, it ensures both superior package aesthetics and structural integrity. Built with durable stainless steel, it meets rigorous hygiene standards while offering a compact, space-saving design for modern production environments.

Technical Specifications

Sealing Style

Round Corner Sealing

Automation Capabilities

- Automatic Filling
- Automatic Sealing
- Automatic Cutting

Material Construction

Stainless Steel

Performance & Features

Suitable Applications

- Liquid Products
- Beverages
- Health Care Products
- Food Products

Key Operational Benefits

User-friendly Interface, Compact Design, Minimal Maintenance, Consistent Performance
