

Automatic Multi-Head Weigher Packaging Machine for Nuts and Dried Fruits

This automatic machine efficiently packages nuts and dried fruits. It uses a multi-head weigher for precise measurement and a vertical form-fill-seal (VFFS) system to create sealed bags.

Overview

High-Efficiency Nut and Dried Fruit Packaging

This automatic multi-head weigher packaging machine is engineered for the precise and efficient handling of granular food products, including nuts, dried fruits, puffed snacks, and cereals. It features a robust vertical form-fill-seal system designed to maintain consistent packaging quality while maximizing production speed. Built for industrial reliability, this solution offers adjustable settings to accommodate a wide variety of bag sizes and material types, ensuring versatile operation for diverse food processing needs.

Key Features

Suitable Materials

Puffed food, Prawn crackers, Peanuts, Cashew nuts, Popcorn, Cereal, Melon seeds, Sugar, Salt, Washing powder

Technical Specifications

Model Comparison

Specification	ZLC720D	ZLC520D	ZLC420C
Max Film Width	720mm	520mm	420mm
Bag Width	110-350mm	90-250mm	80-200mm
Bag Length	100-420mm	80-350mm	50-300mm
Packing Speed	10-50 bags/min	10-70 bags/min	15-80 bags/min
Packing Range	150-4000ml	150-2000ml	150-1500ml
Machine Weight	800kg	650kg	450kg

Power Consumption

4 kw
