

Automatic Nail Making Machine for Iron Steel and Concrete

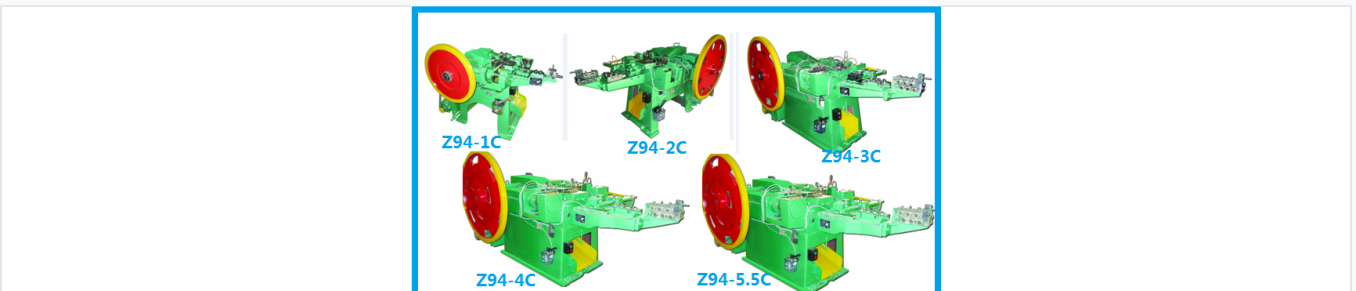

This automatic machine is designed for the efficient production of iron, steel and concrete nails. It is engineered for continuous operation and offers reliable performance in demanding industrial environments.

Product Overview

The Z94 range of high-speed automatic nail manufacturing machines.

Automatic Nail Making Series

The Z94 series automatic nail making machine is a high-performance solution engineered for the efficient production of iron, steel, and concrete nails. Featuring advanced plunger and oil pipe lubrication, these machines ensure high-speed operation, low noise levels, and minimal impact during the manufacturing process. Designed for durability and versatility, the series supports the creation of standard, concrete, stainless steel, D-shape, and T-shape nails, making it an essential asset for industrial-scale nail production.

Technical Specifications

Performance Comparison

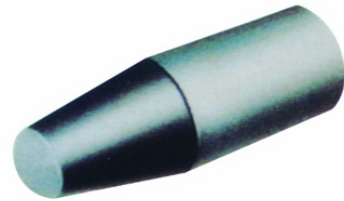

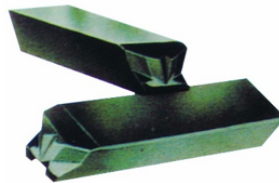

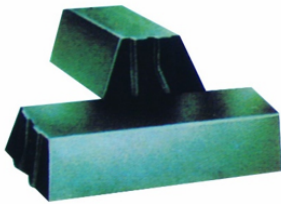

Parameter	Z94-1C	Z94-2C	Z94-3C	Z94-4C	Z94-5.5C	Z94-6.5C
Max Nail Diameter (mm)	1.6	2.8	3.4	4.5	5.5	6.5
Min Nail Diameter (mm)	0.9	1.2	1.8	2.8	3.7	4.5
Max Nail Length (mm)	25	50	80	100	150	200
Min Nail Length (mm)	9	16	30	50	80	100
Output (pcs/min)	450	350	320	260	200	160
Motor Power (kW)	1.5	2.2	3	4	5.5	11
Weight (kg)	560	1200	1400	2000	2500	5000

Manufacturing Capabilities

What App&We chat:86 15852844382

High-precision components essential for consistent nail shaping and cutting.

Supported Nail Types

- Standard Nails
- Concrete Nails
- Stainless Steel Nails
- Asphalt Felt Nails
- D-Shape Nails
- T-Shape Nails
