Overview

High-Efficiency Nail Production

This automatic nail making machine is engineered for high-speed, stable, and durable industrial performance. Designed for precision, it features an automated wire feeding system and synchronized cutting and forming units to ensure consistent quality. Its robust mechanical structure and compact footprint make it a reliable solution for diverse nail manufacturing requirements.

Technical Specifications

Production Speed

720 PCS/min

Output Rate

Nail Dimensions

Parameter	Range
Nail Length	40-95 mm
Nail Diameter	2.5-4.0 mm

Power Requirements

- Voltage: AC380V
- Total Power: 7.5 KW
- Rated Frequency: 50 HZ

Physical Attributes

Dimensions	2000 x 1400 x 1100 mm
Weight	3000 KG

Key Features

Operational Advantages

High Speed • Stable Quality • Convenient Operation • Durable
