

Automatic Paper Cup Forming Machine

This automatic paper cup forming machine produces paper cups of various sizes. It features a robust frame, pneumatic cylinders, and an electronic control panel for efficient and precise operation.

Product Overview

High-Efficiency Production

The Automatic Paper Cup Forming Machine is engineered for reliable, high-volume production of paper cups in various sizes. Featuring a robust construction and advanced pneumatic systems, it ensures consistent output quality while minimizing the need for manual intervention. This unit is an essential asset for facilities looking to optimize their paper packaging manufacturing workflows.

Technical Specifications

Model Number	ZDJ-300K
Operation Type	Automatic

Key Features

Industry Suitability

Paper Packaging • High-Volume Manufacturing

Core Features

Robust Frame, Pneumatic Cylinders, Electronic Control Panel, High-Volume Production
