

Automatic PET Bottle Blowing Machine

This automatic PET bottle blowing machine is designed for producing various shapes of PET containers and bottles. It features a high level of automation, simple operation, and high production efficiency.

Product Overview

High-Efficiency PET Bottle Production

This automatic PET bottle blowing machine is engineered for the versatile production of various PET container shapes, including carbonated drink, mineral water, and cosmetic bottles. Designed with a focus on high automation and simple operation, it delivers exceptional production efficiency for diverse industrial needs. The machine utilizes durable construction and precise engineering to ensure long-lasting performance and reliability in demanding packaging environments.

Capabilities

Suitable Applications

Carbonated Drinks, Mineral Water, Cosmetics, Wide-mouth Bottles

Performance

Automation Level

High Automation

Operational Focus

- Simple operation
- High production efficiency
- Precise engineering
- Durable construction
