Product Overview

Automatic PET Bottle Filling System

This high-efficiency automatic filling plant is engineered specifically for PET bottle production lines handling pure and mineral water. The system integrates washing, filling, and sealing processes into a compact, stainless steel framework that ensures compliance with food and beverage industry hygiene standards. Designed for flexibility, it supports various bottle sizes, making it an ideal solution for small to medium-sized bottling facilities seeking to automate production and enhance output consistency.

Technical Specifications

Model Comparison Table

Model	Configuration (W/F/S)	Capacity (b/h)
CGF16126	16-12-6	2000-4000
CGF18186	18-18-6	4000-6000
CGF24248	24-24-8	8000-10000
CGF323210	32-32-10	12000-15000

Features

Material	Stainless steel
Integrated Processes	Washing, Filling, Sealing
Suitable Liquids	Pure Water, Mineral Water
Operation Type	Rotary Filling System
