

Automatic Powder Filling and Sealing Machine

This automatic machine is designed for filling and sealing powdered products. It features a precise weighing system, adjustable bag sizes, and a user-friendly interface.

Overview

Automatic Powder Filling and Sealing Machine

This high-speed automatic packaging machine is engineered for the efficient filling and sealing of various free-flowing powders and particles. It features a precise volume cup system for reliable measurement and offers versatile sealing options, including trilateral, four-sided, and pillow-shaped bags. Designed for industrial durability, it is an ideal solution for packaging products such as pesticides, seeds, medicine, fodder, salt, MSG, and soup mixes.

Technical Specifications

Model Specifications

Feature	DXDK60/B	DXDK80/B
Packaging capacity (bags/min)	40-60	50-80
Measurement range (ml)	20-100	1.7-50
Bag Length (mm)	60-80	50-150
Bag Width (mm)	70-120	50-100

Power Supply	380V Phase 4-wire system
---------------------	--------------------------

Power Consumption	1120 W
--------------------------	--------

Net Weight	170 KG
-------------------	--------

Features

Construction Options

Stainless Steel Box • Ordinary Steel Box

Suitable Applications

- Pesticides
- Veterinary drugs
- Seeds
- Medicine
- Fodder
- Desiccant
- Salt
- MSG
- Soup mixes
- Tea

Packaging Versatility

Trilateral sealing, Four-sided sealing, Pillow-shaped bags
