Overview

High-Efficiency Powder Packaging

This automatic powder packaging machine is engineered for the precise and efficient dosing and sealing of powder products. Built with durable stainless steel, it ensures high hygiene standards suitable for the food, pharmaceutical, and chemical industries. The system includes a versatile roll film feeding mechanism and adjustable controls for bag length, temperature, and filling volume, making it a reliable solution for streamlined production.

Technical Specifications

Power Supply	AC220V
Construction Material	Stainless Steel
Mobility	Yes

Compliance & Safety

Safety Features

- Emergency stop buttons
- Protective guards

Certifications	CE
----------------	----

Operational Capabilities

Suitable Industries

Food • Pharmaceutical • Chemical

Filling Methods

- Volumetric
- Gravimetric
