

Automatic Round Bottle Labeling Machine

This automatic labeling machine is designed for applying adhesive labels to round bottles. It is suitable for use in the medicine, foodstuff, and cosmetics industries.

Overview

High-Efficiency Labeling Solution

This automatic round bottle labeling machine is engineered for high-speed, precise labeling across the pharmaceutical, daily chemical, and food & beverage industries. It features advanced computer control with a touch screen interface, allowing for easy parameter setup and automatic detection of label size and bottle diameter. Built for reliability and flexibility, this machine combines high-speed output with strict adherence to GMP standards.

Performance Metrics

Labeling Speed

200 bottles/min

Min Speed

400 bottles/min

Max Speed

Accuracy Error

±0.5mm (dependent on bottle cone and vertical degree)

Technical Specifications

Labeling Scope

Dimension	Range
Height	15-150mm
Length	25-300mm

Scroll Specifications

- Inner Diameter: 76mm
- Outer Diameter: 300mm (Max)

Electrical & Physical

Dimensions & Weight

- Machine Weight: 220kg
- Turntable Weight: 60kg
- Outer Size: 1500 x 800 x 1300mm

Power Requirements

220V 50/60HZ, 1.2KW

Compliance

Certifications

CE, ISO 9001, CQC
