

Automatic Round Bottle Labeling Machine

This automatic labeling machine is designed for applying labels to round bottles. It features a stainless steel construction, adjustable conveyor, and a control panel for fine-tuning label placement.

Overview

High-Efficiency Round Bottle Labeling Solution

This automatic labeling machine is engineered for precision application on round containers. Constructed from durable stainless steel, it features an adjustable conveyor system and a user-friendly control panel for seamless integration into production lines. It is an ideal solution for businesses in the pharmaceutical, cosmetic, and food industries seeking reliable and consistent labeling performance.

Technical Specifications

Material	Stainless Steel
Application Type	Automatic
Compatible Container Shape	Round

Features

Key Features

- Adjustable conveyor system
- Control panel with display screen
- Precision adjustment knobs
- Durable stainless steel construction

Industry Applications

Suitable Industries	Pharmaceutical, Cosmetic, Food & Beverage
